You can deduct eligible moving expenses from employment or self-employment income you earn at your new location if you move and establish a new home to be employed or carry on a business. You can also deduct moving expenses if you move to study courses as a **student in full-time attendance** enrolled in a program at a post-secondary level at a university, college or other educational institution. However, you can **only** deduct moving expenses from the taxable part of your scholarships, fellowships, bursaries, certain prizes, and research grants. If distance in kilometers between your new home and your new place of work or educational institutions is less than 40 kilometers, you cannot deduct your moving expenses. If this is the case, do not complete this form.
